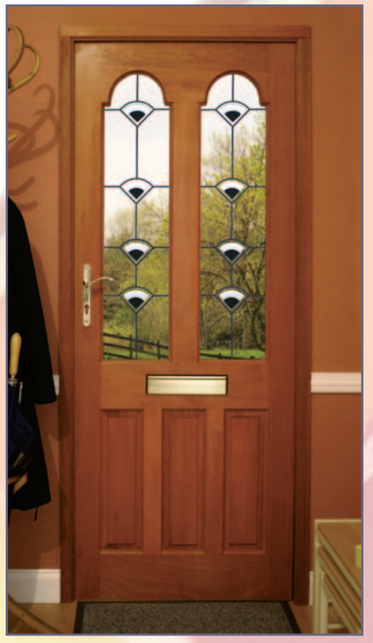
Decra Fused Tile Collection

Decra Fused Tiles

Decra Fused Tiles, from North Western Lead Company (Hyde) Ltd., is a new range of products, which takes the production of decorative glass into a realm which has, to date, remained unexplored. We would like to show you a range of tiles made out of coloured pieces of glass, which have been fused together at extremely high temperature, to create miniature works of art.



We offer patterns and colours on our Squares we are sure you will love. You will be intrigued by the design possibilities using our Quadrants, while our Diamonds will awaken the creative urge within you which has been hiding for too long.

You will notice the authentic appearance of coloured glass, yet will be surprised by the smoothness of the underside of each tile. This is a feature which has been deliberately incorporated into each Decra Fused Tile, to ensure that bonding them to glass, using one of our U.V.-curing adhesives, is as problem-free as you would expect from a Decra Led product.

Every Decra Fused Tile is individually skin packed for extra protection, which means that you can order any quantity you choose. If you only need to order one, no problem! Our packaging is geared for flexibility.

Decra Fused Tiles allow you to create decorative glass of a kind you have never made before. Use them along with the new colours of Decra Led – our Red, Blue, Green and Yellow lead strips are intended to be used with Decra Fused Tiles – and your customers will be thrilled with the new designs which you can offer.

Decra Fused Tiles can be used for windows, doors, conservatories, internally or externally, for glass furniture panels, for mirrors, even for shower screens!

While all possible care is taken to maintain the consistency of colours in Decra Fused Tiles, batch to batch variation may occur.

Decra Led®

Bringing windows, doors and conservatories to life

Contents

	Tile	Page
4cm squares - diagonal coloured stripes	DFTA 001 - 006	4
4cm squares - square within 4 rectangles	DFTB 001 - 006	4
4cm squares - centre tilted square within four equal shapes	DFTC 001 - 006	4
4cm chequered colour and white on clear	DFTD 001 - 005	5
4cm squares - 20mm colour on clear	DFTE 001 - 017	5
6cm squares - five horizontal stripes	DFTF 001 - 004 & 006	6
6cm squares - five diagonal coloured stripes	DFTG 001 - 006	6
6cm squares - square within four rectangles	DFTH 001 - 006	7
6cm squares - centre tilted square within four equal shapes	DFTI 001 - 006	7
6cm chequered colour and white on clear	DFTJ 001 - 005	8
6cm quadrants with outer border	DFTK 001 - 006	8
6cm squares -5.4mm white dotted coloured squares inset on white on colour	DFTL 001 - 004	8
6cm squares - 30mm colour square on clear	DFTM 001 - 017	9
6cm squares - 40mm colour square on clear	DFTN 001 - 017	10
76mm x 127mm diamond with five vertical stripes	DFTO 001 - 004 & 006	11
76mm x 127mm diamond with four parallelograms surrounding centre diamond	DFTP 001 - 006	12
100mm x 170mm diamond with four parallelograms surrounding centre diamond	DFTQ 001 - 006	13
76mm x 127mm diamond with centre diamond and eight diagonal, two vertical and two horizontal strips	DFTR 001 - 005	14
76mm x 127mm diamond with centre diamond and two parallelograms each side	DFTS 001 - 005	15
53mm x 89mm diamond with centre coloured diamond on clear	DFTT 001 - 005	15
